NORTH AMERICA LOCATIONS

Going the Distance.....

Cotton International is a worldwide provider of disaster recovery and logistical support services for federal agencies, our domestic clients with overseas interests, Fortune 500 companies and master service agreement contractors. Following a catastrophic event, an international recovery team of experts from all of Cotton's divisions deploy to the affected location where they provide assistance to distressed communities, mitigate immediate damage, construct an operational infrastructure and work with local crews to restore stricken areas.

Wherever and whatever the incident—high-impact weather event, earthquake, environmental mishap, act of terrorism, or other disaster, both natural and manmade.---Cotton International provides an efficient, safe and environmentally--sound response to recovery and restoration.
